Front, with 0.125 in bleed

Back, with 0.125 in bleed

Front, trimmed 3.5 x 2 in

Back, trimmed 3.5 x 2 in

- **Guides:** magenta dashed = trim (3.5 x 2 in); cyan fine-dashed = safe area (0.125 in inside trim); outer edge = 0.125 in bleed. Guides appear on this proof sheet only; the artwork pages (pages 2 and 3) omit them.
- **Working assumptions pending printer selection:** US standard trim, 0.125 in bleed, 0.125 in minimum safe margin. Color is RGB from the website palette; CMYK/paper conversion is printer-specific.
- **Revision 2 changes:** tagline "Human Centered AI" (supplied by Robert); vibeshiftai.com centered under the QR code in place of the old caption, with no separate website row; dashboard-inspired grid, dashed orbits, wires and nodes added behind the front, with the circles kept.
- **Proposed copy, not yet confirmed:** title "Founder & AI Consultant".
- **Supplied details:** Robert Washko, robert.washko@vibeshiftai.com, 917-620-3336, vibeshiftai.com. QR encodes https://vibeshiftai.com.
